

500 TON SURFACE TEST TREE

Superior Performance Inc. is extending its Power Products line to include the PowerXFlow. The Power Product Line is designed for ultra deepwater work and to deliver superior strength and quality you expect from a Superior Performance product.

The PowerXFlow is your tool for sub-sea completions, workovers and P&A campaigns. It is designed for non-flowback operations, as well as easy, quick and safe rig up.

The PowerXFlow is versatile and easy to handle. It is dropped-objects tested and certified and easily transported.

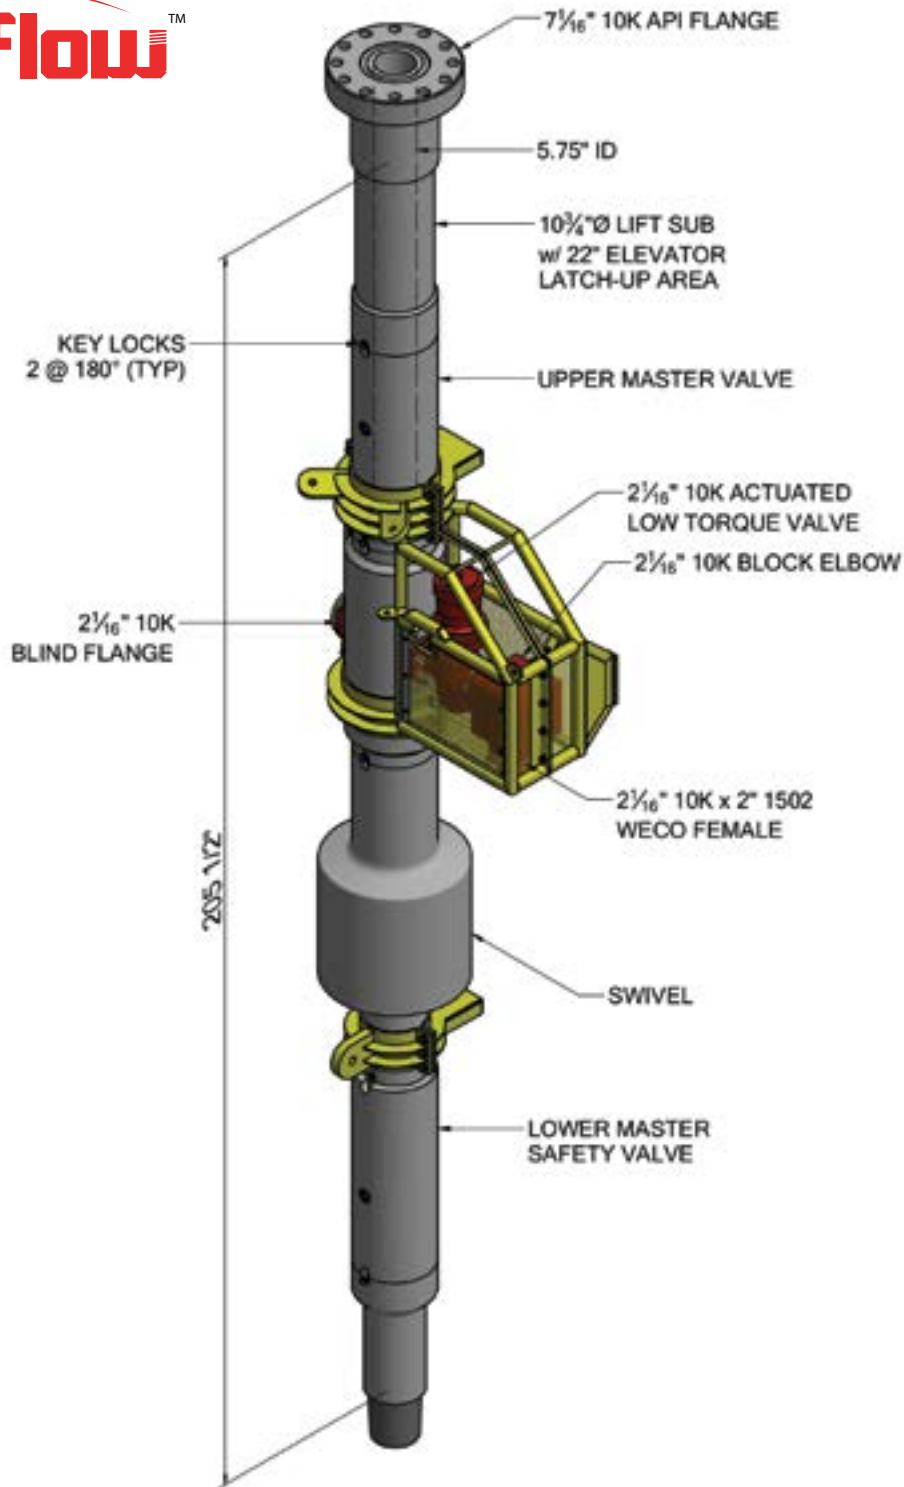

Let Superior Performance's newest technology work for you.
